ADVANCES
IN PERINATAL
MEDICINE:
MEET
THE EXPERT

Purpose of the Workshop 2021:

The purpose of the International Workshop ADVANCES IN PERINATAL MEDICINE: MEET THE EXPERT (APMME) of the IO PhD International Research Program is to bring together scientists and clinicians from different communities to discuss a broad range of scientific issues related to the latest advances in the field of fetal and neonatal medicine. Topics of the APMME will include: endocrine disruptors, fetal-neonatal outcomes, experimental perinatal medicine, placental physiopathology, fetal-neonatal medicine, experimental neonatology, clinical obstetrics and clinical neonatology. Recent advances in above mentioned disciplines will be discussed within "experts" providing data from clinical and experimental medicine and basic science. Particular attention will be dedicated to research programs developed by young scientist and clinicians. The meeting will be organized in 3 different scientific sessions including clinical, experimental and basic science, perinatal and pediatric medicine topics. The APMME will also include the possibility to discuss the validity of research data with invited international experts of top ranking journals of the disciplines object of the meeting and Cochrane international advisor.
